- div – p, img

## Section 7:

- footer
- p

# CSS Analysis

## Section1 :

1. Logo aligned to the left
2. Space and then navigation links aligned horizontally to the right
3. This section has 2 backgrounds, a top and bottom one.
4. Image with circular border
5. Image is offset vertically and cuts through the margin of the top background and the bottom one.

6. A heading with two font styles
7. A paragraph with centre alignment
8. Link that is font-color black and centered

## **Section 2:**

1. Heading with different font styles
2. Image on the left is offset to the bottom of the heading
3. The second image is too the right and its top aligned to the top of the heading
4. Below the right image is a button with styling and a border with shadows
5. This section also has two different backgrounds

## **Section 3:**

1. Large heading with different font styles
2. A paragraph to the right of the heading
3. A button just below the paragraph
4. A horizontal rule seperating two areas of this section
5. A paragraph below the rule
6. Arrow icons pointing down
7. Link with font color to view portfolio

## **Section 4:**

1. 12 images arranged in a grid pattern each of them with a text overlay on the top left and bottom left position of the image.
2. A view more button with a shadow and styling

## **Section 5:**

1. A short heading also with mixed font styling
2. A paragraph
3. A link
4. An image to the right of the above componets
5. The components above are repeated 3 times for different information.
6. A link with font color to see all the projects

## **Section 6:**

1. Big Contact Me heading in bold

2. A smaller sized subheading
3. Four contact cards aligned horizontally with space between each.
4. Each of the cards has an image an h3 element and some paragraph
5. below that is an image to the left and a form to the right with a blue button with styling at the bottom of the form.

## **Section 7:**

1. This is a small section
2. It has an image background
3. It has a paragraph that is center aligned
4. There are social links as icons that are center-aligned horizontally

## **Section 8:**

1. This is a footer section
2. It has two words aligned to the center

## **Conclusion:**

What am I not familiar with:

1. The dual background styling
2. Offsetting the hero image between 2 divs
3. Overlaying text on an image
